We're available 9:00 AM - 6:00 PM EST,
Monday-Friday.

"When my husband was told he had kidney cancer, we searched the web for hours, but we ended our searches more scared and confused than when we started.

My employer told me about Cancer Expert Now, and the following day, we spoke to a top kidney oncologist, Dr. Janice Dutcher, from our kitchen! After 30 minutes of speaking with Dr. Dutcher, we understood Jim's diagnosis, which tests he had done and their results, which tests we still needed, and the options available to us. Most importantly, we had the confidence we needed to get Jim staged and treated locally. We are now 2 years since surgery, and Jim is cancer free! I can't thank my employer enough for being prepared."
